

Health, Performance & Antibiotic Usage Review

Vet review of data and recommendation
of actions/priority areas

It is a requirement that your vet annually completes a review of health and performance records and medicine usage.

Below is a template that covers the information needed to meet the standard. As part of the review the vet will need access to the records that have been used to collate data (e.g. medicine records). Your vet may use a different template, but a similar review must be undertaken.

1. We have been on this farm in the last 12 months and seen the stock

2. I have reviewed the health and performance records and made the following recommendations to improve identified issues:

3. I have discussed the recommendations from previous reviews

Comments

4. I have reviewed data on the total antibiotic used, by product name and made the following recommendations to responsibly reduce the use of antibiotics where appropriate without negatively impacting animal welfare

1

2

3

**Red Tractor
Assurance**

5. We have prescribed Highest Priority Critically Important antibiotics on this farm in the last 12 months and have made the following recommendations to responsibly reduce the use of Highest Priority Critically Important Antibiotics / I have not prescribed Highest Priority Critically Important Antibiotics on this farm in the last 12 months (delete as appropriate)

1

2

3

6. I have reviewed the prophylactic use of antibiotics and have made the following recommendations for alternative disease prevention strategies / Antibiotics have not been used prophylactically on this farm in the last 12 months (delete as appropriate)

1

2

3

7. I have discussed relevant industry disease initiatives to improve animal health and have made the following recommendations:

Vet declaration

The priorities and actions I recommend above are based upon the data and facts provided to me and the livestock I have seen. As such, the effectiveness of my recommendations could be limited by the accuracy of the information provided and whether the livestock seen are a true reflection of the farm.
