A pet health plan covers the essential treatments your pet needs throughout life, such as vaccinations, flea and worm treatments and regular health checks. Extra benefits of the plan include discounts on many other products and services at the practice.

We aim to make preventative health plans easy and affordable, to help you give your pets the best care possible. We believe that prevention is better than cure and have designed a standard and premium option to suit your needs.

Please refer to the adjacent chart to choose a plan that meets your requirements
